GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts at the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee must submit the calculation to the governing body by Aug. 7 or as soon thereafter as practicable.

This worksheet is for **school districts without Chapter 313 agreements only**. School districts that have a Chapter 313 agreement should use Calculation Worksheet, School Districts with Chapter 313 Agreements.

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 Water District Voter-Approval Worksheet. All other taxing units should use Comptroller Form 50-856 Tax Rate Calculation, Taxing Units Other Than School Districts.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides details to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax
