Questions To and Answers From CRF Help (7-28-2020)

1. We have 7 school districts in our county that need assistance with health and safety of their students and staff as they return to school. Will we be responsible for tracking and reporting their expenditures or will each district be responsible?

A county may transfer funds to a city, town, or school district within the county, and a county or city may transfer funds to its State, provided that the transfer qualifies as a necessary expenditure incurred due to the public health emergency and meets the other CRF eligibility criteria. If the county were to use a portion of its allocation to support its school districts, it would remain ultimately responsible for tracking and reporting their expenditures.

2. Will things like ultraviolet light installations and/or room air sanitizers qualify for reimbursement under this grant?

"Expenses funded through the CRF must meet eligibility criteria that costs be:

- 1) necessary expenditures due to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19);
- 2) not accounted for in the budget most recently approved as of March 27, 2020 (the date of enactment of the CARES Act) for the State or government;
- 3) incurred and expended during the period that begins March 1, 2020 and ends on December 30, 2020.

Treasury Department guidance notes that jurisdictions are responsible for making determinations as to what expenditures are necessary due to the public health emergency with respect to COVID-19. Therefore, CRF funding could be used for these costs if the county makes such a determination and the expense meets the other eligibility criteria. Additionally,

expenditures should only be limited to those that are necessary due to COVID-19.

While TDEM does not give specific pre-approval of expenses, the items listed here would appear to be eligible assuming they meet the above criteria."

3. Do our incorporated cities apply separately for their funds or does the county apply for all the funds and distribute to the cities?

Each county and each incorporated jurisdiction will receive a separate allocation which is based on \$55 per capita. A county's allocation is based on the unincorporated population of the county. Each of these jurisdictions will need to download the terms and conditions and submit the required forms to access the funds. In addition, each jurisdiction will be responsible for the funds and providing documentation to support that these funds are spent as required.

4. I want to clarify that there is no "matching funds" requirement. The Coronavirus Relief Fund does not require matching funds or an applicant cost share.

Section 3: New Account Information (Needed for setups and changes)

Completion by financial institution is recommended.

Important: Your direct deposit account information may be different from the account information printed on your checks. It is recommended that you contact your financial institution to confirm your direct deposit account information.

Prenote Test:

A prenote test will be sent to your financial institution for the account information provided. The prenote test is for a period of six banking days, and it is sent to your financial institution to verify your account information. If no further action is required by your financial institution, your direct deposit instructions will become effective when the six banking day prenote time frame has expired.

Section 4: Existing Account Information (Needed for changes to existing account information)

When requesting a change to your existing direct deposit account information, you must complete Section 4 with the existing account information for verification purposes. This measure will help the paying state agency verify accuracy of the requested change.
